

IECnet

Your global network.

www.iecnet.net

Founded in 1987.

IECnet is a global network of independent professional firms of accountants, auditors and tax consultants.

Each member firm is a separate legal entity, qualified and operating under the laws and regulations of its own country.

Since its formation in 1987, IECnet has been promoting activities for its members in key areas, to draw upon expertise and to share a common high level professional approach to client service.

With over 69 selected member firms located in 57 countries and in 5 continents, 30 languages, over 2062 staff and 313 partners, IECnet is evolving with global business in mind.

Members have built and strengthened personal contacts, thus establishing a network of mutual support which provides advice and assistance to clients

wherever they need, both inside and outside their own domestic jurisdiction. IECnet does not provide services itself but its members support clients wishing to operate abroad. Clients have the advantage of being advised to a very high standard and guided by proven experts in all their international as well as local business requirements. IECnet with a turnover of € 200 million was ranked 30 in the International Accounting Bulletin 2025 World Survey.

Services offered by IECnet members

Services offered by IECnet members can be broadly classified as:

- **Corporate and accountancy**
- **Tax issues for individuals and companies**
- **Audit**

Corporate and accountancy

Managing and handling international activities requires extensive knowledge of local rules and regulations. IECnet members provide tailor-made global accountancy, financial reporting and payroll services. IECnet members also assist clients setting up new businesses to efficiently select the most suitable and focused legal structure, in compliance with local regulations and the distinct demands that the client faces. All the corporate and tax law matters involved are dealt with by experienced and reliable professionals. The advantage to the client is to have just one contact who coordinates all the required tasks and other activities: the ultimate «one-stop shop» worldwide.

Tax issues for individuals and companies

Globalization can bring success and profits but can also generate risks. When conducting cross border business or managing personal finances, tax planning and assistance are essential to optimize and fulfill all local tax requirements. Through IECnet clients have access to local knowledge with international assistance. Tax consultancy is on a customized basis and of highest quality.

Audit

There are many reasons why clients need audited financial reports. These may be legal obligation, demand from banks, shareholders, or customers. Most of the members are qualified auditors, regulated by their national and professional bodies. IECnet rules require members to comply with high-level international technical and ethical standards. IECnet quality control reviews ensure respect of the rules. IECnet has been a full member of IFAC's Forum of Firms since January 1st, 2009.

Formally established in 2002, the Forum of Firms (FOF) is an association of international networks of accounting firms that perform transnational audits. Members of the Forum have committed to adhere to and promote the consistent application of high quality audit practices worldwide, as detailed in the FOF Constitution.
